

Welcome to “A Second Breath Swim School”, formerly “McAlpines Backyard Pool”. We are excited to offer our new swimming facility to you and your family. We have designed our swimming facility to cater to all ages with a large step entry, three variable depths and dimensions that allow for all needs. Whatever the weather throws at us during the instructional day, we will be ready with our heated, salt water pool. A salt water pool is gentle on the skin and wonderful for all who enjoy opening their eyes under the water.

For those of you who do not know us, we are the Wright's. My wife, Beckie has been instructing swimming lessons for 19 years. To assist us with our busy summer swimming schedule, we are happy to have Martha Rempel instructing with us again this year. Martha is an Elementary teacher who brings with her 4 years experience in instructing swimming lessons. Both Beckie and Martha are teachers, and their love for teaching shows, with their handling of each child in the pool. For many of you who do know us, we would like to say “Welcome Back!”, for yet another exciting summer of swimming lessons. With this being our first year at our new location, we do have some new regulations in place that we would like to pass on to you, as parents. While your child or children are learning to swim with us, we kindly ask you to follow these guidelines:

- Relax and enjoy the summer weather in the designated sitting area and please refrain from leaning on the fence. Your children are in good hands; allow us to instruct your child or children while in class. We do not mind you watching your child's lesson but would ask you remain outside the fence in the designated area. On the last day of lessons we would invite parents to watch lessons, inside the fenced in area. However, we do ask that children not participating in the lesson at that time to remain outside the enclosed pool area.
- Our property is close to our neighbours and we want to respect their property and privacy as well.
- Our home, decks, flowers beds, play equipment etc. are off limits at all times. Please remind your children of this.
- If you have children with you waiting, there is a playground across the road. With your supervision, they can also enjoy the summer weather playing on the swings and slides. Please refrain from using our play set, as it is not meant for all sizes of children.
- We do offer a portable washroom on site for all to use.
- Inclement weather is one thing we cannot control. Heavy rain, thunder and/or lightning will result in lessons being cancelled. Please use your discretion and if in doubt call 519-293-1023. Lessons cancelled due to acts of nature will not be rescheduled.
- If your child is unable to attend a class please advise the instructor in advance of the absence. Unfortunately our schedule does not allow for make-up classes.
